An Austrian gold watch chain

An Austrian gold watch chain, c.1930, with alternating flat bar and trombone links with a swivel clip to one end and bolt ring to the other, ignore markings, tested as approximately 9ct gold, 373mm long, 10.10g, together with a pair of gold amethyst drop earrings, two graduated oval mixed cut amethysts, each claw set to an oval stepped frame and articulated between, with clip fittings, tested as approximately 9ct gold, earrings 43mm long, 14.68g (3)

Condition Report

Patches of tarnish to the Albert. A scratch to the table of the smaller amethyst of one earring.

Condition Report Disclaimer

A condition report made by us, whether orally or in writing, is a matter of opinion, of the seller or Sworders, and cannot be considered a statement of fact; our staff are not professional restorers, historian's or conservators.

The condition of an item can vary widely due to factors such as age, damage, restoration and repair, their very nature means they are rarely in perfect condition, therefore, all lots are sold 'as is'. Whilst all due diligence is taken to ensuring the information provided is accurate, we cannot be held responsible for omissions, faults, defects, restoration, alteration, variations in colour and shades, or changes not identified, and you must satisfy yourself (without limitation) as to the condition, age, authenticity, and provenance prior to purchasing a lot.

All dimensions and weights are approximate.
