Finger size O

#### **Condition Report**

Opal is a solid opal, not a doublet, with the play-of-colour largely confined to the top surface/table.

Opal slightly loose in setting.

Underneath of opal and diamonds a little dirty, would benefit from being cleaned.

Underbezel split from shank on one side.

Some wear to claws, one claw slightly away from stone.

Some minor scratches/abrasions to the crown of the opal, visible under 10x magnification, not easily visible with the naked eye.

Surface marks/scratches to mount.

Solder joins visible on either side of shank where half shank has been replaced.
